# ILLUZIO

Chromatherapy with invisible LED

Meet **ILLUZIO**, a new chromatherapy system exclusive to BainUltra!

Imagine a sleek, pristine bath... Now imagine it also includes one of the most beneficial therapies.

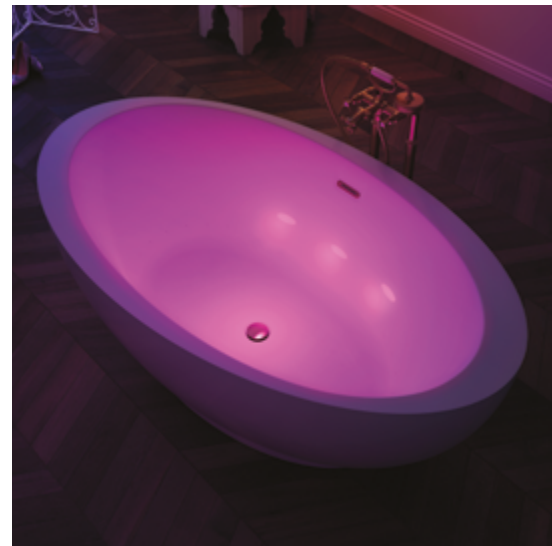

With BainUltra's characteristic innovation and creativity, a seamless chromatherapy system has been developed with hidden LED that leaves the bath's inner shell completely intact and smooth.

## ILLUSION IS PERFECT!

**ILLUZIO'S chromatherapy LED** are cleverly tucked away inside the structure of the bath so they're **invisible** when the system is not in operation.

**Activate the chromatherapy** and oval colored lights glow beautifully through the bath's translucent acrylic shell, providing all the same therapeutic benefits as BainUltra's traditional chromatherapy system.

**ILLUZIO** boasts the **frequencies and wavelengths that deliver the most effective chromatherapy with maximum benefits**, and uses the BainUltra known controls.
