VIBE

VIBE™ is a new collection of therapeutic bathtubs with minimalist and contemporary flair. The collection is perfect for urban city dwellers who want to bring value and refinement to smaller bathrooms. The VIBE collection is the first offering from BainUltra's urBAIN category to address the needs of younger, sophisticated bathers. Inspired by the city skyline and architectures of cosmopolitan cities, you can feel miles away from the streets below as you rest your mind, body and spirit in an expertly crafted bath.

Designed to fit in smaller installations without compromising the quality, comfort and ergonomics of a therapeutic bath. VIBE helps create an urban oasis of sensual therapies that allows the bather to recharge. The clean lines, pure design and sloping walls bring class, sophistication and style to even the smallest of spaces.

Get Healthier

A LEADER IN WELLNESS

The stress modern life puts on the body adds up; walking on concrete in fashionable but uncomfortable shoes strains the back, as does sitting in an office chair for many hours in an unnatural position... To compensate people exercise, go to the gym, do yoga, etc. Yet, that also taxes the body. To top it all, the pace of modern life, the stress of juggling a career and an active social life can also exhaust the mental and emotional state of a person.

VIBE™ allows you to take a moment for yourself, to recharge and help heal your mind and body. Hydro-thermo massage® helps ease back pain, increases circulation, reduces tension and stress as it helps the body heal and eliminate toxins. Add Illuzio® chromatherapy to change your state to help energize, calm, rebalance and recharge.

Without taking time regularly to disconnect from the world and heal yourself, you have less energy, focus and drive to live your best life.
