● Control position when factory-installed (Mia® or DOT) ● Turbine position (TMU)
● Indicates heated backrest (TMU) ● Indicates WarmTouchShell® position (Soaker)

Hot water supply required	The hot water supply should be 70% or more of the bath's total water capacity.
Turbine	Access to the pump must be at least 18" x 22". Standard connection is 20 A, 120 V, 60 Hz, dedicated line with a Ground-Fault Circuit Interrupter (GFCI). For any additional option, a second line is needed 15 A, 120 V, 60 Hz, dedicated line with a GFCI. Air vent necessary: 2" x 4" minimum.
Others	The Geysair® is located on the same side as the heated backrest. It must not be relocated. It must be connected to the hot water supply and be accessible (provide access).
	Turbine must be remotely installed in certain conditions. Integrated tile flange is included (specify right or left).

Our products must be installed by certified professionals only and according to our Owner's Manual as well as federal, provincial/state and local building codes and regulations (www.bainultra.com/dealers/dealer-documentation-and-catalog).

Cutting template	# 90000106
Approx. shipping weight	200 lb
Turbine power	550 W
Air heater	600 W

Warranty

Controls-LED-Geysair*	5 years
Bath & turbine*	20 years

* Some restrictions apply | www.bainultra.com/warranty

Dimensions are subject to change; measured at external edges. Bathing well measured at air jet level. Tolerance: ±0.25" (±0.64 cm). Ensure bathtub is received prior to any construction. BainUltra® is not responsible for any preparatory work done before product arrival.
